## Practice Exercise 10

Fractions of Objects and Amounts

Key Facts to Learn
Learning Exercises 13 to 14

Underline the fraction of the buttons

## that are ringed: <br> $\oplus \oplus \oplus \oplus \oplus \oplus \oplus \oplus$

- Now shade one tenth in red.
- How many tenths have not been shaded in?
P10b

What fraction of the rectangle is
P10a

- Shade five tenths of this rectangle

- Make these patterns symmetrical
one whole
Practice Exercise 25 b and
Geometry: Symmetru

P25c

- Draw the reflections of these shapes in the mirro

- Order and list your items from lightest to heaviest using the weights Thewn on the labels.
according they take up.
they take up.
- Do heavy things. What do you notice? in the cupboard? take up more space

T4. Nosey
How mo think the Achieven Write do - Now with many nos top row.
Thinking Tasks 3 to 5
T3. Old Mother Hubbard
You want to find out if
heavy things take up more
space in the cupboard.
Look in your kitchen cupboards and
choose a range of at least six small,
large, light and heavy items, all
unopened and packaged, and
weighing between 50 g and 500 g g and
Draw up a table like this:

- Using the same amounts ending in make by subtractii
