

Playground Bird Identifier

Blackbird

Males are black with a bright yellow/ orange beak. Females are mainly brown.

Robin

One of the easiest birds to spot with their bright red breast. Robins are especially common in winter.

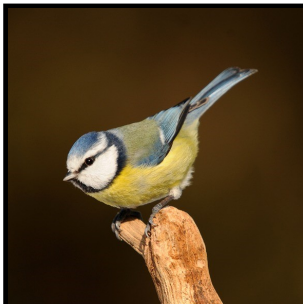

House Sparrow

Chestnut back with a pale chest. The beak changes colour from yellow/brown in winter to black in summer.

Woodpigeon

A larger bird which is mostly grey with white patches on its neck and a pale purple/pink breast. Listen for the coo.

Blue Tit

Beautiful blue and yellow feathers. Blue Tits flock together in winter to find food.

Chaffinch

The UK's second most common bird. It has a distinctive orange/brown body and blue/grey head.
